

Great Ponton AFC get a new access track....

Galliford Try has engaged with the community throughout the delivery of the GSRR project.

We have developed our stakeholder engagement programme as the scheme progresses and support the local community wherever possible.

Having established contact with the Great Ponton Parish Council we were asked if we could provide an access track for the amateur football clubs changing facilities.

The club had no access and with bad weather the area around the changing facilities would flood and become a quagmire.

With support from our subcontractor CR Civil Engineering Ltd we have provided a stone access track and pathway leading up to and around the changing facilities.

Ian Cruickshank

Chairman GPPC

On behalf of great Ponton Parish Council I felt compelled to write to you to express our sincere thanks .

We are so very grateful and appreciative of your company's kindness and commitment to providing a hard standing area completely free of any charges to the residents of Great Ponton .

This area that you have kindly provided and prepared for our village over on the football fields looks fantastic and has really enhanced the community field, we are now able to gain access to the football pavilion without getting bogged down in mud , in addition as a bonus it has made the Camping and Caravan pitches near there so much more accessible and the area much more attractive.

Thank you and your Team so much for this extremely kind gesture .
